Nagpur – 440001, Maharashtra.

Sub: Submission of Six monthly Compliance report for Construction Project located Survey No. 70/1 and S. No. 65/1/1B, Mouje Wakad, Tal. Mulashi, Dist. Pune by Akanksha Builders.

Ref: Environment Clearance from SEIAA of Maharashtra no. SEIAA-EC-22B038MH158171 Dated 10.01.2022

Respected Sir,

We have Proposed expansion of residential cum commercial construction Project located at Survey No. 70/1 and S. No. 65/1/1B, Mouje Wakad, Tal. Mulashi, Dist. Pune by Akanksha Builders. We are submitting herewith the six monthly compliance for the months January 2022 –June 2022.

Now we are applying for expansion of existing EC. Therefore, we request you to visit our site and certify the conditions mentioned in SEIAA of Maharashtra no. SEIAA-EC-22B038MH158171 Dated 10.01.2022.

Thanking you,

Yours Faithfully,

Akanksha Builders

Compliance to the conditions stipulated in the Environmental Clearance issued by Ministry of Environment, Forest & Climate Change obtained vide letter no. SEIAA EC22B038MH158171 dated 10/01/2022, for expansion of residential cum commercial project at Survey No. 70/1 and 65/1B, Mouje Wakad, Tal. Mulashi, Dist Pune By Akanksha Builders.

Period of Report: January'2022 to June '2022

S.N.	Description	Present Status (Yes/No)
	Specific Conditions	
A	SEAC Conditions	
1	PP to submit the MoD NoC.	MoD Copy is attached as Annexure I
2	PP to submit the details of electricity generation through solar PV panels.	Details attached as Annexure II
3	PP to provide minimum 30% of total parking arrangements with electric charging facility by providing charging points at suitable places.	Agreed
B	SEIAA Conditions	
1	PP to keep open spaces unpaved as so to ensure permeability of water. However, whenever paving is deemed necessary, PP to provide grass pavers types & strength to increase the water permeable area as well as to allow effective fire tender movement.	Agreed
2	PP to achieve at least 5% of total energy requirement from solar/other renewable sources.	Agreed
4	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt.04.01.2019.	Agreed
5	SEIAA decided to grant EC for – FSI: 40258.87 m2, Non-FSI:24241.13 m2 and Total BUA: 64500.00 m2 (Plan approval – BP/EC/Wakad/09/2021 dated 08.10.2021)	Environmental clearance is received vide no. EC Identification No. EC22B038MH158171 dated 10/01/2022. Attached as Annexure III.
	General Conditions	
a)	Construction Phase	
I.	The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.	Agreed.
II	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions or general safety and health aspects of people only in approved sites with the approval of competent authority.	Agreed.

 214, The Pentagon, Off Pune Satara Road, Next to Telephone Exchange, Parvati, Pune-411 009.

 +91 20 2422 2844 | 2422 2855

 info@akankshabuilders.com

 www.akankshabuilders.com

III.	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms of necessary approvals of Maharashtra pollution control board.	Agreed.
IV.	Adequate drinking water and sanitary facilities should be provided to construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid waste generated during the construction phase should be ensured.	Agreed.
V.	Arrangement shall be made that wastewater and storm water do not get mixed up.	Agreed.
VI.	Water demand during construction shall be reduced by use of pre-mixed concrete, queering agents and other best practices.	Agreed
VII.	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.	One Well is present at plot boundary.
VIII.	Permission to draw and use ground water for construction of basement if any shall be obtained from competent authority prior to construction and operation of the project.	No extraction of ground water in construction and operation phase.
IX.	Fixtures for showers, toilet, flushing and drinking should be low flow either by use of aerators or pressure reducing devices or sensor based controls.	Agreed
X.	Energy Conservation Building Code shall be strictly adhere to	Agreed
XI.	All top soil excavated during construction activities should be stored for use in horticulture/landscape development within the project site	Agreed
XII.	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.	Agreed
XIII.	Soil and ground water samples will be tested to ascertain that there is no threat to groundwater quality by leaching of heavy metals and other toxic contaminants.	Soil testing reports and Water report is attached as Annexure IV.
XIV.	PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Area) Protection and preservation of Trees Act,1975 as amended during the validity of environment Clearance.	Noted
XV.	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.	Agreed
XVI.	PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Area) Protection and preservation of Trees Act,1975 as amended during the validity of environment Clearance.	Noted
XVII.	Vehicles hired for the transportation of Raw material shall strictly comply the emission norms prescribed by Ministry of Road Transport & Highway Department. The vehicle shall be adequately	Agreed

	covered to avoid spillage and leakage.	
XVIII.	Ambient noise level should conform to residential standards both during day and night. Incremental pollution load on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB	Ambient air and Noise reports attached as Annexure V.
XIX	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra pollution Control board	Noted
XX	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase so as to avoid disturbances to surroundings	Agreed
b)	Operation Phase	
I.	a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (Manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.	Agreed
II.	E- Waste shall be disposed through authorized vendor as per E-waste (Management and Handling) Rules 2016.	Agreed, E waste will be disposed through the authorized vendor.
III.	a) The installation of Sewage Treatment plant should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment Dept. before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP. b)PP to give 100 % treatment to sewage/Liquid waste and explore the possibility to recycle at least 50 % of water, Local Authority should ensure this.	Agreed
IV.	Project proponent shall ensure completion of STP, MSW disposal facility, Green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area of gardening before discharging it into sewer line. No physical	Agreed.

	occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement.	
V.	The occupancy certificate shall be issued by the local planning authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.	Noted
VI.	Traffic congestion near the entry and exit points from the roads adjoining the proposed site must be avoided. Parking should be fully internalized, and no public space should be utilized.	Agreed
VII.	PP to provide adequate electric charging points for electric vehicles (EVs)	Agreed
VIII.	Green belt development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.	Agreed
IX.	A separate environment management cell with qualified staff shall be set up for the implementation of the stipulated environmental safeguards.	Noted
X.	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise-break-ups. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for the other purposes.	Noted
XI.	The project management shall advertize at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded EC and copies of EC letter are available with Maharashtra Pollution Control Board and may also be available at website at http://parivesh.nic.in	Advertized is given in the two local news paper on 21.10.2022 Advertisement is attached as Annexure VI .
XII.	Project proponent should submit half yearly compliance reports in respect of the stipulated prior Environmental Clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1 st June & 1 st December of each calendar year.	Noted
XIII.	A copy of the EC letter shall be sent by proponent to the concerned Municipal corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the PP.	Noted
XIV.	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of the monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the regional office of MoEF, the respective Zonal office of CPCB and SPCB. The criteria pollutant	Noted

	levels namely; SPM, RSPM, SO ₂ , NO _x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	
c)	General EC Conditions	
I.	PP has to abide by the conditions stipulated by SEAC & SEIAA	Agreed
II.	If applicable "Consent for Establishment" shall be obtained from Maharashtra Pollution Control board under Air and Water Act and a copy shall be submitted to the Environment Department before start of any construction work at the site.	Yes, Consent to Establish certificate vide no. Format 1.0/BO/JD(WPC)/UAN No.0000118095/CE-2111000788 dated 18/11/2021 is attached Annexure VII.
III	Under the provision of Environment (Protection) act 1986, legal action shall be initiated against the project proponent if it was found that construction of project had started without obtaining Environmental Clearance.	EC Identification No. EC22B038MH158171 dated 10/01/2022. Attached as Annexure III.
IV.	The Project Proponent shall also submit six monthly reports on the status of the compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional office of MoEF, the respective Zonal office of CPCB and SPCB	Agreed
V.	The environmental statement for each financial year ending 31 st March in form-V as in mandated to be submitted by the PP to the concerned SPCB as prescribed under the Environment Protection Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.	Agreed
VI.	No further expansion or modifications other than mentioned in the EIA notification 2006 and its amendments shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh clearance should be made to the SEIAA as applicable to assess the adequacy of conditions imposed and to add additional environmental protection measures required if any.	Agreed
VII.	This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing	
	committee of the national Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild Life clearance granted to the project which will be considered separately on merit.	Noted

VII.	This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing	
	committee of the national Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild Life clearance granted to the project which will be considered separately on merit.	Noted
4.	The Environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that PP has not violated any environmental laws in the past and whatever decision under EP act of the Hon'ble court will be binding on the PP. hence this clearance does not give immunity to the PP in the case filed against him, if any or action initiated under EP Act	Agreed
5	This environmental clearance is issued purely from an environment point of view without prejudice to any court cases and all other applicable permissions/NOCs shall be obtained before starting proposed work at site.	Agreed
6	In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the EC without any intimation and initiate appropriate legal action under EP Act, 1986	Agreed
7	Validity of EC: The environmental clearance accorded shall be valid as per EIA Notification 2006 amended time to time	Noted
8	The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, The Environment Protection Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public liability Insurance Act, 1991 and its amendments.	Noted
9	Any appeal against this EC shall lie with the National Green Tribunal, (Western Zone Bench, Pune) New Administrative Building, 1 st Floor D-wing, opposite Council Hall, Pune, if preferred, within 30 days as prescribed under section 16 of the National Green Tribunal Act 2010.	Noted

Annexure II – Energy Details

Single Line Diagram of Rooftop Facility for Net Metering Interconnection

- Solar PV ON GRID system itself describe that we can connect it to the electricity distribution company grid power through NET metering.
- Net metering is only the mechanism to count the NET units exported (from solar) Vs the units imported (from grid).
- Because of this each of the consumer get credit units balance in monthly bill of the electricity distribution company and thus helped to reduce the monthly outflow of electricity charges.
- The system inverter converts DC current (generated by Solar PV) into AC & the self synchronized MPPT (Maximum Power Point Tracker) inverter delivers solar power to the grid.
- It is absolutely maintenance free system & only cleaning of panels is required.
- Space required for the system- Approximate 100 Sq Ft per 1 KW Panel.
- Generally the warranty of solar panel is for 25 years & 5 years for inverter.

TECHNICAL DETAILS

- **Solar Panels:**
Wattage: 390 Wp or More, Efficiency: 19% ~ 19.5%, Operating Conditions: -40 to 85°C.
- **The generation per KW in a day (5 hours is the average working hours of solar panel) are 4.5 to 5 KWH. In this project the capacity being 50 KW, total generation shall be approximately 220 – 250 KWH.**

- **PCU(Inverter):**
Efficiency: > 95%, Power factor: >0.9

Considerations: Covered area for the installation of PCU/ Inverter should be minimum and less than 10Mtrs from the solar PV Array.

- **All Components are generally in line with the prevailing MNRE specifications/IS/IEC standards.**

**Annexure III – Environmental Clearance

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/MH/MIS/217615/2021 dated 01 Jul 2021. The particulars of the environmental clearance granted to the project are as below.

- | | |
|--|---|
| 1. EC Identification No. | EC22B038MH158171 |
| 2. File No. | SIA/MH/MIS/217615/2021 |
| 3. Project Type | New |
| 4. Category | B2 |
| 5. Project/Activity including Schedule No. | 8(a) Building and Construction projects |
| 6. Name of Project | Proposed residential cum commercial construction project S. No. 70/1 and S. No. 65/1/1B, Mouje Wakad, Tal. Mulashi, Dist. Pune by Akanksha Builders |
| 7. Name of Company/Organization | AKANKSHA BUILDERS |
| 8. Location of Project | Maharashtra |
| 9. TOR Date | N/A |

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 10/01/2022

(e-signed)
Manisha Patankar Mhaiskar
Member Secretary
SEIAA - (Maharashtra)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

Reference : Application no. SIA/MH/MIS/217615/2021

This has reference to your communication on the above mentioned subject. The proposal was considered by the SEAC-3 in its 126th meeting under screening category 8 (a) B2 as per EIA Notification, 2006 and recommend to SEIAA. Proposal then considered in 234th (Day-3) meeting of State Level Environment Impact Assessment Authority (SEIAA).

2. Brief Information of the project submitted by you is as below:-

1	Proposal Number	SIA/MH/MIS/217615/2021	
2	Name of Project	“Proposed Residential cum Commercial Construction Project” located at S. No. 70/1 and S. No. 65/1/1B, Mouje Wakad, Tal. - Mulshi, Dist-Pune.	
3	Project category	8 (a) of EIA Notification 2006- B2 Type – Building & Construction Project	
4	Type of Institution	Joint Venture Project	
5	Project Proponent	Name	Mr. Nihal Shaikh (Partner)
		Regd. Office address	The Pentagon Building, office no. 213, off Pune - Satara Road, Near Hotel Panchami, Parvati Dist. Pune
		Contact number	9850094796, 020-24222844/55
		e-mail	wakad70@gmail.com
6	EMP Consultant	Accredited by NABET vide accreditation no.: NABET/EIA/1922/RA 0199 valid till 24 th September 2022 (the scope of consultancy is limited only to preparation of Environmental Management Plan as per EIA amendment notification 3 rd March 2016)	
7	Applied for	Fresh EC	
8	Details of previous EC	Not Applicable	
9	Location of the project	S. No. 70/1 and S. No. 65/1/1B, at Mouje Wakad, Tal. - Mulshi, Dist-Pune.	

10	Latitude and Longitude	Latitude: 18°35'45.90"N Longitude: 73°44'38.01"E			
11	Total Plot Area (m ²)	12,491.72			
12	Deductions (m ²)	2019.11			
13	Net Plot area (m ²)	10472.61			
14	Proposed FSI area (m ²)	40258.87			
15	Proposed Non-FSI area (m ²)	24241.13			
16	Proposed TBUA (m ²)	64500.00			
17	TBUA (m ²) approved by Planning Authority till date	TBUA (FSI+Non FSI) approved by PCMC as per IOD letter no. BP/EC/Wakad/09/2021 dated 08.10.2021 is 66452.11 m ²			
18	Ground coverage (m ²) & %	3240.92 m ² (25.94)%			
19	Total Project Cost (Rs.)	97 Cr			
20	CER as per MoEF & CC circular dated 01/05/2018	CER Activities will be done as and if applicable			
21	Details of Building Configuration: <Please use following legends: Floor = F , Parking = Pk, Podium = Po, Stilt =St, Lower Ground = LG, Upper Ground = UG, Basement = B, Shops = Sh>				
	Previous EC / Existing Building		Proposed Configuration		
	Building Name	Configuration	Height (m)	Building Name	Configuration
	-	-	-	A Wing	B + G + Po + 16 F
	-	-	-	B Wing	B + G + Po + 16 F
	-	-	-	C Wing	B + G + Po + 16 F
	-	-	-	C Wing (LIG)	B + G + Po + 16 F
	-	-	-	Commercial Building Wing D	G + 11
22	Total number of tenements	391 Flats and 11 Offices			
23	Water Budget	Dry Season (CMD)		Wet Season (CMD)	
		Fresh Water	192	Fresh Water	192
		Recycled (Flushing + Gardening)	113	Recycled	101
		Swimming Pool	-	Swimming Pool	-
		Flushing	101	Flushing	101
		Total	305	Total	293
	Waste water generation	264	Waste water generation	264

		OHT	192	101	100
		UGT	292	70	650

25	Source of water	Pimpri Chinchwad Municipal Corporation		
26	Rainwater Harvesting (RWH)	Level of the Ground water table	Pre-Monsoon: 6.5 mt Post Monsoon: 3.5 mt	
		Size and no of RWH tank(s) and Quantity	N.A.	
		Quantity and size of recharge pits	Total 4 Nos. (2 for Roof Top & 2 for Surface Run Off) Size: 2.0 m × 2.0 m × 2.0 m	
		Details of UGT tanks if any	NA	
27	Sewage and Wastewater	Sewage generation in CMD	264	
		STP technology	MBBR	
		Capacity of STP (CMD)	STP 1- 250 KLD (Residential) STP 2- 30 KLD (Commercial)	
28	Solid Waste Management during Construction Phase	Type	Quantity (kg/d)	Treatment / disposal
		Dry waste:	18 Kg /day	Handed over to authorized agency
		Wet waste:	27 Kg /day	
		Construction Waste:	2 m ³ /day	Reuse for road construction & refilling
29	Solid Waste Management during Operation Phase	Type	Quantity (kg/d)	Treatment / disposal
		Dry waste	487	Treatment – Segregation at source only, Disposal - Through authorized vendor (SWaCH, Pune)
		Wet waste	651	Treatment – OWC machine Disposal – Used as a manure
		Hazardous waste	N.A.	N.A.
		Biomedical waste	Not Quantified yet	Authorized Vendor
		E-Waste	1615 Kg/Year	Handed over to Authorized Agency
		STP Sludge (dry)	17 Kg/day	Used as manure
30	Green Belt Development	Total RG area (m ²)	Proposed Open Space Area: 1050.00 m ² Proposed Green Belt: 1634.98 m ² Total Landscape area: 2682.24 m ²	
		Existing trees on plot	4	
		Number of trees to be planted	152	
		Number of trees to be cut	Nil	
		Number of trees to be transplanted	NIL	
31	Power Requirement	Source of power supply	MSEDCL	
		During Construction Phase (Demand Load)	45 kW	
		During Operation phase (Connected load)	3010 KW, 3345 KVA	
		During Operation phase (Demand load)	1627 KW, 1808 KVA	
		Transformer	630 kVA X 2 Nos 315 kVA X 1 Nos	
		DG set	225 KVA x 2 No	
		Fuel used	HSD	
32	Details of	<ul style="list-style-type: none"> ➤ Timer control external lighting 		

	Energy saving	<ul style="list-style-type: none"> ➤ Natural light during day time and timers during night time in parking area lighting ➤ Maximum use of daylight in tenements area by providing appropriate window sizing ➤ Energy efficient lighting fixtures (LED lights) to all Buildings ➤ Saving in Energy Consumption is 22 % ➤ Use of LED lamps in all public/ common areas. ➤ Solar water heating for all tenements ➤ Separate energy meter for all pollution control devices ➤ Electricity generation through solar PV Panels ➤ Use of Energy efficient motors 				
33	Environmental Management plan budget during Construction phase	No.	Details		Cost	
		1	Erosion Control: Dust Suppression measures & barricading		Rs. 5 Lakh	
		2	Site Safety: Nets, Barricades		Rs. 2 Lakh	
		3	Site Sanitation: Public Toilets		Rs. 2 Lakh	
		4	Disinfection & health checkup		Rs. 2 Lakh	
		5	Environmental Monitoring: STP, OWC		Rs. 1.20 Lakh	
		6	Total		Rs. 12.20 Lakh	
34	Environmental Management plan Budget during Operation phase	Component	Details		Capital Cost (Lakh)	O&M Cost (Lakh/Y)
		Sewage treatment	STP (including external drainage connection)		96.00	20.00
		Storm water networking	Storm water networking		33.00	2.00
		RWH	Rain Water Harvesting		15.00	1.00
		Solid Waste	Solid waste Management		14.00	2.00
		Green Belt Development	Landscape		88.00	2.0
		Swimming Pool	Swimming Pool		20.00	2.00
		Energy Saving Measures	Solar water heater, solar PV. Energy efficient Equipments		117.00	2.00
		Environmental Monitoring			2.00	3.00
		Safety training & awareness			5.00	1.00
		EMP Cost			390.00	35.00
		Disaster Management Cost			150.00	4.00
Grand Total (EMP + DMP)			540.00	39.00		
35	Traffic Management	Type	Required as per DCR		Actual Provided	Area per parking (m2)
		4-Wheeler	302		327	12.5
		2-Wheeler	1320		1328	2.00
		Bicycles	-		-	0.7

3. Proposal is a new construction project. Proposal has been considered by SEIAA in its 234th (Day-3) meeting and decided to accord Environment Clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implantation of following terms and conditions-

Specific Conditions:

A. SEAC Conditions-

1. PP to submit the MoD NoC.
2. PP to submit the details of electricity generation through solar PV Panels.
3. PP to provide minimum 30% of total parking arrangement with electric charging facility by providing charging points at suitable places.

B. SEIAA Conditions-

1. PP to keep open space unpaved so as to ensure permeability of water. However, whenever paving is deemed necessary, PP to provide grass pavers of suitable types & strength to increase the water permeable area as well as to allow effective fire tender movement.
2. PP to achieve at least 5% of total energy requirement from solar/other renewable sources.
3. PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA.III dt.04.01.2019.
4. SEIAA after deliberation decided to grant EC for – FSI-40258.87 m², Non-FSI-24241.13 m², Total BUA-64500.00 m². (Plan approval-BP/EC/Wakad/09/2021 dated 08.10.2021).

General Conditions:

a) Construction Phase :-

- I. The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. Disposal of muck, Construction spoils, including bituminous material during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in the approved sites with the approval of competent authority.
- III. Any hazardous waste generated during construction phase should be disposed of as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
- IV. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- V. Arrangement shall be made that waste water and storm water do not get mixed.
- VI. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices.
- VII. The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
- VIII. Permission to draw ground water for construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
- IX. Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.

- X. The Energy Conservation Building code shall be strictly adhered to.
- XI. All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- XII. Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
- XIII. Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
- XIV. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XV. The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
- XVI. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XVII. Vehicles hired for transportation of Raw material shall strictly comply the emission norms prescribed by Ministry of Road Transport & Highways Department. The vehicle shall be adequately covered to avoid spillage/leakages.
- XVIII. Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
- XIX. Diesel power generating sets proposed as source of backup power for elevators and common area illumination during construction phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel is preferred. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
- XX. Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings by a separate environment cell /designated person.

B) Operation phase:-

- I. a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
- III. a) The installation of the Sewage Treatment Plant (STP) should be certified by an

- independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/ reused to the maximum extent possible. Treatment of 100% grey water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP. b) PP to give 100 % treatment to sewage /Liquid waste and explore the possibility to recycle at least 50 % of water, Local authority should ensure this.
- IV. Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement.
 - V. The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
 - VI. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
 - VII. PP to provide adequate electric charging points for electric vehicles (EVs).
 - VIII. Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
 - IX. A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
 - X. Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes.
 - XI. The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at <http://parivesh.nic.in>
 - XII. Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
 - XIII. A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
 - XIV. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely;

SPM, RSPM. SO₂, NO_x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

C) General EC Conditions:-

- I. PP has to strictly abide by the conditions stipulated by SEAC & SEIAA.
 - II. If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
 - III. Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
 - IV. The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
 - V. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.
 - VI. No further Expansion or modifications, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh reference shall be made to the SEIAA as applicable to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
 - VII. This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.
4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.
5. This Environment Clearance is issued purely from an environment point of view without prejudice to any court cases and all other applicable permissions/ NOCs shall be obtained before starting proposed work at site.
6. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.
7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, amended from time to time.

8. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.

9. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D-Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

Date: 18.11.2021

To,
M/s Akanksha Builders
Proposed residential cum commercial
construction building project
S. No. 70/1 and S. No. 65/1/1B, Mouje
Wakad,
Tal. Mulshi, Dist. Pune

Your Service is Our Duty

Sub: Consent to Establish for residential and commercial construction project in Red Category

Ref: 1. Application submitted by SRO Pimpri Chinchwad, Pune

Your application NO. MPCB-CONSENT-0000118095

For: grant of Consent to Establish under Section 25 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization / Renewal of Authorization under Rule 6 of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I,II,III & IV annexed to this order:

1. The consent is granted for period upto commissioning of the project or five years whichever is earlier
2. The capital investment of the project is Rs.78 Cr. (As per C.A Certificate submitted by industry).
3. The Consent to Establish is valid for Proposed residential cum commercial construction building construction project at wakad by M/s Akanksha Builders, S. No. 70/1 and S. No. 65/1/1B,1B, Mouje Wakad, Tal. Mulshi, Dist. Pune on Total Plot Area of 12491.72 SqMtrs for construction BUA of 64500 SqMtrs including utilities and services
4. Conditions under Water (P&CP), 1974 Act for discharge of effluent:

Sr No	Description	Permitted (in CMD)	Standards to	Disposal
1.	Trade effluent	Nil	NA	NA
2.	Domestic effluent	264	As per Schedule - I	The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be connected to the sewerage system provided by local body

5. Conditions under Air (P& CP) Act, 1981 for air emissions:

Stack No.	Description of stack / source	Number of Stack	Standards to be achieved
S-1	DG Set- 225 KVA	01	As per Schedule -II
S-2	DG Set- 225 KVA	01	As per Schedule -II

6. Conditions under Solid Waste Rules, 2016:

Sr No	Type Of Waste	Quantity & UoM	Treatment	Disposal
1	Biodegradable waste	651 Kg/Day	Organic waste Converter with composting facility / Biogas digester with composting facility	As Manure for gardening
2	Non Biodegradable waste	487 Kg/Day	Segregation	Send to authorized vendor
3	STP Sludge	23 Kg/Day	Dewatering	As Manure

7. Conditions under Hazardous & Other Wastes (M & T M) Rules 2016 for treatment and disposal of hazardous waste:

Sr No	Category No.	Quantity	UoM	Treatment	Disposal
1	S.1 Used or spent oil	50	Ltr/A	Reprocessing	To Authorized Reprocessor

- This Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
- This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government agencies.
- Project Proponent shall install online monitoring system for the parameter pH, SS, BOD and flow at the outlet of STP.
- Project Proponent shall provide Organic waste digester with composting facility or biodigester with composting facility.
- Project Proponent shall comply the Construction and Demolition Waste Management Rules, 2016 which is notified by Ministry of Environment, Forest and Climate Change dtd.29/03/2016.
- The project proponent shall make provision of charging of electric vehicles in atleast 40 % of total available parking area.
- The project proponent shall take adequate measures to control dust emission and noise level during construction phase.
- PP shall obtain Environmental Clearance from competent authority for the proposed activity. PP shall not take effective steps towards construction without obtaining Environmental Clearance.
- PP shall submit an affidavit in Boards prescribed format within 15 days regarding compliance of C to E.

For and on behalf of the
Maharashtra Pollution Control Board.

Dr. Y.B.Sontakke
Joint Director (WPC)

Received Consent fee of -

Sr.No	Amount(Rs.)	Transaction/DR.No.	Date	Transaction Type

1. Regional Officer, MPCB, Pune and Sub-Regional Officer, MPCB, Pune II
- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Sion, Mumbai

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

- 1) A) As per your application, you have proposed to provide Two Sewage Treatment Plant (STPs) with design capacity of 250 CMD & 30 CMD based on MBBR
- B) The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

Sr.No	Parameters	Limiting concentration not to exceed in mg/l, except for pH
1	pH	5.5-9.0
2	BOD	10
3	COD	50
4	TSS	20
5	NH4 N	5
6	N-total	10
7	Fecal Coliform	less than 100

- C) The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to the sewerage system provided by local body.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, and other provisions as contained in the said act.**

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	0.00
2.	Domestic purpose	192.00
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	0.00
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	0.00

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1985 and rule made there under from time to time.

SCHEDULE-II

Terms & conditions for compliance of Air Pollution Control:

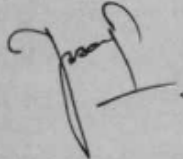

- 1) As per your application, you have proposed to provide the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

Stack No.	Stack Attached To	APC System	Height in Mtrs.	Type of Fuel	Quantity & UoM
S-1	DG Set- 225 KVA	Acoustic Enclosure	3.0	HSD	38.6 Ltr/Hr
S-2	DG Set- 225 KVA	Acoustic Enclosure	3.0	HSD	38.6 Ltr/Hr

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

Total Particular matter	Not to exceed	150 mg/Nm ³
-------------------------	---------------	------------------------

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**
- The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
 - The toilet shall be provided with exhaust system connected to chimney through ducting.
 - The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
 - The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

SCHEDULE-III

SCHEDULE-IV

Conditions during construction phase

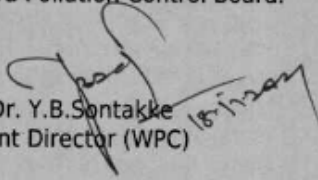

A	During construction phase, applicant shall provide temporary sewage and MSW treatment and disposal facility for the staff and worker quarters.
B	During construction phase, the ambient air and noise quality shall be maintained and should be closely monitored through MoEF approved laboratory.
C	Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.

General Conditions:

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2 The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
 - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
 - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
 - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
 - f) D.G. Set shall be operated only in case of power failure.
 - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
 - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.

- 6 Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9 The treated sewage shall be disinfected using suitable disinfection method.
- 10 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11 The applicant shall obtain Consent to Operate from Maharashtra Pollution Control Board before commissioning of the project.

For and on behalf of the
Maharashtra Pollution Control Board.

Dr. Y.B. Sontakke
Joint Director (WPC)
